This request form does NOT act as a "scholarship deferment." It will act as your "deferment for admissions" and will ensure that you will be considered for the scholarship awarding index that is in place at the time of your return. Your award will be based upon your GPA (as of the scholarship deadline) at the time of your return. For home-school students and those with a GED, the ACT or SAT scores (as of the scholarship deadline) will be used for awarding.

Grant funded, endowed and annual (i.e. those in BOSS) 1 semester (or year) awards cannot be held due to the funding allocations and the need to re-award. Students who receive scholarships outside of ISU will need to contact the outside agency about possible deferment.
