

# Getting 'Appy' in the Classroom

## Course Syllabus

### Course Description

Technology serves a wide range of purposes in the classroom. From increasing student engagement to facilitating a classroom learning environment, technology can be used to create dynamic lessons that foster student engagement. One seamless way to integrate technology into the classroom is through educational apps. Educational apps open the world to possibilities in the classroom. Students and teachers will have the ability to interact, collaborate, and create both inside and outside the classroom. This course will provide teachers with an array of educational apps that can be used in their classroom, as well as ways to integrate them into their instruction.
