

Accelerate Math Program Overview

Learning Strand (Today)

- What is Acceleration?
- What changes can I make right now?
- What support will be available to help me make these changes?
- Build the IPLP

Collaboration Strand

- Zoom: 1.5 hour each month
- Pre-sessions: < 1hour
- Learning Goals
- Activating Prior Knowledge
- Building Vocabulary
- Engaging Tasks
- Giving Students Greater Responsibilities
- Scaffolding

Coaching Strand

- Apply to work with math specialists
- Stipend
- Coaching focused around supporting the learning from Workshop and Monthly Meetings

Assessment

Coaching Strand

Purpose:

Helping teachers to develop mathematically proficient students by improving best practices

Who is this for?

This can be individual or include whole teams, supporting PLCs and professional learning as a staff.

What will you learn?

To Implement and reflect on The Acceleration Framework with an emphasis on "Just in Time" learning.

Coaching Strand Application

<https://bit.ly/3RhMUQb>

Coaching will be designed around teacher goals for growth and/or the learning from the Collaboration Strand.

Low Intensity

Purpose: 3-4 site visits a year to goal-set, observations, overall teacher or environment assessment with follow up

Moderate Intensity

Purpose: focused on improving classroom instructional practices; might consist of co-teaching, co-planning, modeling - every 1-2 months

High Intensity

Purpose: regular classroom coaching focusing on improving classroom instructional practices - up to twice-a-month on-site visits with regular virtual/in person support

Things to remember when applying

Attendance at monthly meeting is required.

Coaching stipends paid are dependent of level of coaching

Individuals or teams can apply for coaching

Coaching will be based on teacher/student needs and goals
