

Journal Publications

Brininger, C., Spradlin, S., Lori, C., Evilia, C. 2018. "The more adaptive to change, the more likely you are to survive: Protein adaptation in extremophiles". *Seminars in Cell and Developmental Biology*, **84**, 158-169. DOI: 10.1016/j.semcd.2017.12.016

Evilia, C. 2018. "Understanding protein adaptations can help us solve real problems". *Seminars in Cell and Developmental Biology*, **84**, 127-128. DOI: 10.1016/j.semcd.2018.02.009

S. Spradlin, L. Cobani, C. Brininger, C. Evilia, Book chapter, titled, "Archaea were trailblazers in signaling evolution: Protein adaptation and structural fluidity as a form of intracellular communication", in *Biocommunication in Archaea*, Editor: Günther Witzany, Springer International Publishing AG, Cham publishers. DOI: 10.1007/978-3-319-65536-9_12

Hanson, R., Evilia, C., Gilmer, J., Woods, L., Black, B., Flores, R., Pfau, J. C. 2016. "Libby Amphibole-Induced Mesothelial Cell Autoantibodies Bind to Surface Plasminogen and Alter Collagen Matrix Remodeling." *Physiological Reports*, **4** (15, e12881), 1-12. DOI: 10.14814/phy2.12881

C. J. Reed, Bushnell, S. C. Evilia. 2014. "Circular dichroism and fluorescence spectroscopy of cysteinyl-tRNA synthetase from *Halobacterium salinarum* ssp. NRC-1 demonstrates that group I cations are particularly effective in providing structure and stability to this halophilic protein." *PLoS ONE*, **9** (3), e89452. DOI: 10.1371/journal.pone.0089452. eCollection 2014

C. J. Reed, H. Lewis, E. Trejo, V. Winston, C. Evilia. 2013. "Protein adaptations in archaeal extremophiles." *Archaea*, **2013**, 373275. DOI: 10.1155/2013/373275.

V.Vo, Z. G. Kabuloglu-Karayusuf, S. W. Carper, B. B. Bennett* and C. Evilia. 2010. "Novel 4,4'-diether-2,2'-bipyridine cisplatin analogues are more effective than cisplatin at inducing apoptosis in cancer cell lines." *Bioorganic and Medicinal Chemistry*, **18**, 1163-70. DOI: 10.1016/j.bmc.2009.12.047.

S. R. MacAuley, S. A. Zimmerman, E. Apolinario, C. Evilia, Y-M. Hou, J. G. Ferry, K. R. Sowers. (2009) "The Archetype γ -Class Carbonic Anhydrase (Cam) Contains Iron when Synthesized *in vivo* in *Methanosarcina acetivorans*." *Biochemistry* **48**, 817-819. DOI: 10.1021/bi802246s

S. E. LaPatra, C. Evilia, V. Winston (2008). Positively selected sites on the surface glycoprotein (G) of infectious hematopoietic necrosis virus. *Journal of General Virology* **89**, 703-08. DOI: 10.1099/vir.0.83451-0

"Catalysis by the second class of tRNA(m1G37) methyltransferase requires a conserved proline," T. Christian, C. Evilia, Y.M. Hou, *Biochemistry* 45, 7463-7, 2006.

"Acquisition of an insertion peptide for efficient aminoacylation by a halophile tRNA synthetase," C. Evilia, Y.M. Hou *Biochemistry* 45, 6835-45, 2006.

"Distinct Evolution of tRNA(m1G37) Methyltransferase," T. Christian, C. Evilia, S. Williams, and Y.-M. Hou, *Journal of Molecular Biology* 339, 707-719, 2004.

"Aminoacylation of an Unusual tRNA^{Cys} from an Extreme Halophile," C. Evilia, X. Ming, S. DasSarma, and Y.-M. Hou, *RNA* 9, 794-801, 2003.

"The Archaeal Prolyl-CysteinyI-tRNA Synthetase is Associated with a Multifunction Protein: Implication for a Multi-Synthetase Complex in Archaea," R. S. A. Lipman, O. Vitseva, C. Evilia, and Y.-M. Hou, *Biochemistry* 42, 7487-7496, 2003.

"Alternative Design of a tRNA Core for Aminoacylation," T. Christian, R. S. A. Lipman, C. Evilia, and Y-M. Hou, *Journal of Molecular Biology* 303, 503-514, 2001.
