I. INTRODUCTION

The purpose of this policy is to maintain a safe and respectful campus environment by prohibiting hazing in any form. Hazing undermines the University's core values of respect, dignity, and personal well-being. This policy aims to protect all Students, Staff, and Faculty from the harmful physical, mental, and emotional effects of hazing activities, while promoting a culture of inclusion, respect, and teamwork. Hazing has no place in our University community. Any and all acts of hazing are strictly prohibited and subject to University disciplinary action. The University is committed to preventing acts of hazing through evidence-based awareness and prevention education and is dedicated to maintaining a safe and supportive environment for all members of our University community.

II. DEFINITIONS

- B. **Hazing.** (1) Any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons) against another person or persons regardless of the willingness of such other person or persons to participate, that is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in, a

student organization, and causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution of higher education or the organization (such as the physical preparation necessary for participation in an athletic team), of physical or psychological injury; or (2) subjecting a person to bodily danger or physical harm or a likelihood of bodily danger or physical harm, or to require, encourage, authorize or permit that the person be subjected to the acts listed in Section V below as a condition or precondition of attaining membership or attaining office or status in a fraternity, sorority, or other living or social student group or organization organized or operating on or near an Idaho State University Campus. Apathy or acquiescence in the presence of hazing is not a neutral act and are violations of this policy. Acts that constitute hazing include, but are not limited to, the acts listed in Section V, below.

- C. **Mandatory Reporter.** An employee of the University who is obligated by law and/or policy to share knowledge, notice, and/or reports of harassment, discrimination, and/or retaliation with the Office of Equal Opportunity and Title IX or the Department of Public Safety.

- G. **Student Organization.** An organization at an institution of higher education (such as a club, society, association, athletic team (this includes but is not limited to ISU sponsored athletic teams, club teams, and intramural teams), fraternity, sorority, band, or student government) in which two or more of the members are students enrolled at the institution of higher education, whether or not the organization is established or recognized by the institution.

III. POLICY STATEMENT

Effective learning environments require student safety, including the protection of student dignity. There is no room for hazing in the educational environment. Any individual who performs, plans, or intentionally assists in hazing activity has engaged in hazing and is liable for discipline under the provisions of this policy, regardless of whether that individual is physically present when the act of

hazing occurs.
