ITRC Facility Description

History

Idaho State University's Instructional Technology Resource Center (ITRC) was created in 1997 by Dr. Jonathan Lawson, former ISU Vice President for Academic Affairs with initial startup funding by the Idaho State Board of Education Technology Incentive Grant. The ITRC provides faculty with access, ability, and confidence to use academic technologies in both traditional and distance-learning environments. Educational Technology Services (ETS), Academic Affairs, and Information Technology Services (ITS) provided the foundational support for the ITRC.

Facility

The ITRC has two physical areas for computer training and support. One-on-one help is done in the ITRC drop-in and production lab area, while a dedicated training lab is used for group instruction. ITRC staff support eISU faculty with online course design projects through Quality Matters (QM) focused professional development and standards.

eISU Quality+ Program

The Quality+ Program officially began in Fall 2017. Beginning in 2012 through Fall 2017, ISU had participated in several efforts to roll out Quality Matters™ (QM). Those efforts were based on the recommendations from the Faculty Committee which recommended we adopt QM as the standard for online courses at ISU (see the [2012 ISU QM Review Recommendations](#)).

ITRC Projects

Web Conferencing

In Spring of 2016, we requested faculty to participate in a focus-group to evaluate web conferencing solutions. Blackboard Collaborate (Original and Ultra) and Zoom were recommended, purchased, and integrated into Moodle ISU. After two years of using both products, Zoom was determined to be the preferred web conferencing solution by ISU stakeholders. Blackboard Collaborate was removed in Fall of 2019.

Video Captioning Services & Accessibility Projects

The ITRC started working with ISU Disability Services in the Fall of 2015 to offer video captioning services. Lori Piccolo replaced Lori Austill as the lead of this service in the ITRC including hiring student captioners and employing captioning vendors. The following figures provide an overview of the captioning projects and file remediation work.

Moodle Community Participation

Moodle ISU is a tailored version of the open-source learning management system Moodle. It supports web-based activities for traditional, blended, and online learning environments. In addition, Moodle ISU offers a wide array of features to support innovative pedagogy for student-centered and active learning teaching methods, which encourages the use of social constructivism.

The ITRC continues to work with its faculty to expand the usability of Moodle ISU. The ITRC used the 2019-2020 academic year to improve the usability of the Moodle ISU environment through performance and application enhancements.

ISU has been recognized as an active participant in the Moodle community. Michael Spall is an active member of the Moodle Gradebook working group. Spall is a member of the Moodle Users Association.

LMS Projects

Adamcik and Spall addressed the following Moodle upgrades and configurations:

- Updated Production Moodle ISU from 3.5 to 3.7 - August 2019
- Spall ported Moodle ISU code (plugins, customizations, and theme) to Moodle 3.9 - Spring 2020
- Spall upgraded Moodle ISU AWS servers.

Audio/Video Projects

ITRC audio/video production provides support for the faculty in basic projects needed for traditional classroom, video classroom, and Moodle ISU. We had a total of 374 video project requests for the 2019-2020 academic year.

The classroom video encoders were updated to Winnov C3 boxes that allow scheduling using the Google Calendar and HD recording through HDMI, DVI, and SDI.

ISU Partnerships

Partnership with ISU Meridian Health Science Center

The ITRC has partnered with the ISU Meridian Health Science Center, formerly ISU Boise Center, to offer faculty support on a permanent basis. Stamm was reassigned to Boise in 2007, due to the growing support needs of the ISU health professions programs in the Treasure Valley. Stamm offers instructional technology training and one-on-one consultation for more than 100 faculty/staff members at the ISU Meridian Center. In addition to the responsibilities at ISU Meridian, Stamm provides leadership and direction for the ITRC in Pocatello.

Partnership with ISU Idaho Falls Center

The ITRC has partnered with the ISU Idaho Falls Center to offer faculty support and training. Kidder was designated to travel to Idaho Falls several times a semester, due to the growing support needs of the ISU faculty members teaching from Idaho Falls. In addition, the Idaho Falls Testing Center has offered to review online proctoring reports for faculty.

Partnership with Disability Services

The ITRC has partnered with the ISU Disabilities Services Center to provide transcription and captioning of educational multimedia materials so that Moodle ISU course materials meet the needs of diverse learners. Piccolo works with the disabilities services staff to evaluate course materials and coordinate captioning projects.
