More info to come!

BAHM

It is that time of the semester for the Bi-Annual Honors Meeting (BAHM)!

Remember, all Honors students must attend one of the three possible BAHM sessions each semester in order to remain eligible for UHP scholarships, priority registration, and other program benefits. Rooms are determined by your information session you selected.

The dates and times to attend BAHM this semester include:

- Wednesday, March 29th: 5 PM - 6 PM
- Thursday, March 30th: 8 AM - 9 AM
- Friday, March 31st: 12 PM - 1 PM

We will see you all there soon!

An Opportuni-Tea

Owlportunity Donation Asking Events

Come join us in getting donors for your Owlportunity Scholarship! Owlportunity Scholarship prizes are available to students who attend either event! Drop in when you can!

Monday, March 27th | Honors Lounge | 4-7PM

Tuesday, March 28th | Honors Lounge | 4-7PM

Volunteering at the Tea

Your team leader for the Tea will reach out to you with the information about training and other details. Please dress Business Smart/Casual if volunteering on Saturday.

Student Opportunities

Portneuf Resource Council CPI Positions

Portneuf Resource Council (PRC) is partnering with the ISU Career Path Internship program again to find a number of paid student interns to fulfill some interesting positions. Once hired students could begin the work immediately. The positions include:

Hosts for the SustainableIdaho radio podcast. PRC is looking for two new hosts to be trained by our current hosts in preparation for taking over either in the summer or at the beginning of the 23-24 school year.

Grant writing position. The intern would find and write a grant that would fund a physical office for the Portneuf Resource Council and create funds for an office manager who will handle PRC's administrative needs.

Journalism student reporter. This intern is interested in reporting on multiple issues related to PRC's sustainability, clean energy and clean water campaigns. These could include topics covered by Sustainable Idaho, local PFAS pollution, our landfill and other water concerns. This person would focus on research, outreach and education in the community. We expect them to write articles that would be published in local newspapers and as blogs on our website.

Email Linda Engle at LindaRSEngle@gmail.com to apply!

Undergraduate Research Symposium

The Undergraduate Research Symposium is right around the corner. Submissions at any stage of the process are welcome. If you would like help with your abstract, reach out to Conner Suddick for support!

University Honors Program 2023 Graduate School Advising

APPLYING TO GRADUATE SCHOOL IN THE NEAR FUTURE?

Greetings!

Launching this summer, the University Honors Program staff would like to provide specialized application support to students who are considering applying to graduate or professional schools in any field in the Fall 2023 or Fall 2024. **Current Honors students and alumni are eligible to participate at no cost!**

Through 4 - 6 different hour-long advising meetings in the summer of 2023, I will work with up to 12 students to maximize their success navigating the graduate school application process. **For students who are interested in participating in the inaugural cohort, please apply by April 15th [here](#) or using the QR code above. Apply soon as these slots will be given to those who apply early.**

Please reach out to me (connersuddick@isu.edu) if you have any questions!

—

Conner Suddick, M.A.
Instructor/Coordinator - University Honors Program

As a result of this initiative, you will:

- **Learn how to research potential schools and assess what programs may be the best fit for your personal and professional goals**
- **Receive extensive feedback on your graduate school statement of purpose/personal statement**
- **Craft a professional resume and curriculum vitae to accompany letter of recommendation requests and your application materials**
- **Send professional correspondence to faculty recommenders and potential research supervisors**

Summer Research Opportunity - University of Central Florida

HYPER addresses challenges in aerospace travel and energy production, advancing the fundamental knowledge needed to overcome technical barriers limiting hypersonic flight. The 10-week program will be held this summer from May 21st – July 29th, 2023. Participants will gain hands-on research training in challenges such as: utilizing advanced manufacturing techniques for high-value components, integrating in-site monitoring of stress-strain evolution, and more!

We are actively recruiting a diverse group of participants from a variety of universities. These students will:

- Conduct hands-on research guided directly by a faculty mentor and their graduate student(s)
- Interact with a diverse multidisciplinary team of researchers
- Visit the NASA Kennedy Space Center and various aerospace companies
- Participate in professional development workshops
- Gain in-depth training on numerical simulation software ANSYS
- Prepare for graduate school and a research-based career
- Engage with other REU groups located at UCF

Each HYPER REU participant will receive a summer stipend of \$6,000, on-campus housing, and a travel allowance to and from Orlando, Florida. To learn more about the program, please visit our website at cater.cecs.ucf.edu/hyper/ or view the HYPER REU flyer (attached).

The application deadline for HYPER is Sunday, April 3rd, 2023 at 11:59 PM ET. Prospective participants may apply at cater.cecs.ucf.edu/hyper/apply/.
